

Liam McManus

Bio

Software Engineering GA working at tech startup, studying software engineering at Glasgow, drive to be successful although struggles with current university tech - MyCampus, Moodle.

Age: 19

Occupation: Developer

Location: East Kilbride, Glasgow

Goals

- To pass all his courses, hopefully with good grades.
- To understand and be able to code anything that he will need to in the future.
- To create his own software and manage himself.

Motivations

- Drive to be successful.
- Self Improvement
- To improve software out there.

Frustrations

- Slow and clunky code editors, specifically JetBrains software.
- The university systems, MyCampus especially.
- Moodle

Tech

- Apple Hardware (Not by choice, locked into the Eco System).
- [Obsidian](#) for note taking.
- [VSCode](#) as editor
- Google Workspace for most tasks.
- Fullstack

Favourites

- Steam, currently Dave the Diver.
- Obsidians very cool, been using that the past few years.
- Google Workspaces are hated but love them.

Personality

- Determined
- Stressed
- Overly specific and strict
- Needs simplicity
- Bit stupid
